XIV NORDIC FAMILY THERAPY CONGRESS

The Art and Science of Family Therapy: Creating Hope in Challenging Times

Save the Date: August 17th–20th 2027

Welcome to the XIV Nordic Family Therapy Congress

“The Art and Science of Family Therapy: Creating Hope in Challenging Times”

Uppsala University

Within the realm of Family Therapy, there is room for creativity, improvisation, and play, as well as treatment manuals, effect sizes, and process research – all of which can make a difference.

The possibility of making a difference that makes a difference – for our clients, for ourselves, and maybe for the world – might be called hope.

In challenging times, hope needs to be created over and over again. Preferably together with others, not excluding anyone.

We invite you to come and celebrate the broad variety of Family Therapy and Systemic Practice with the 40th Anniversary of Nordic Family Therapy Congresses, in Uppsala August 17th–20th 2027!
